

ADOLESCENT TREATMENT PROGRAM

# DAYTIME DETOX

THE AREA'S ONLY PROGRAM FOR ADOLESCENTS (12-18) FOR SAFE, MEDICALLY SUPERVISED DETOX FROM OPIATES.

**Patients are treated by our physician specializing in pediatric addiction.**

- Detox is the first step in treatment for patients dealing with opiate withdrawal.
- Detox lasts 3-5 days, with the patient returning home every evening.
- During detox the patient is administered medicine to help with symptoms, receives counseling and is monitored throughout the day in a comfortable, therapeutic setting.

**After Detox, individuals continue treatment through counseling and other supportive services.**

***NOW AVAILABLE – Vivitrol & Suboxone Treatment***

**COMMUNITY HEALTH CENTER ADOLESCENT DETOX**

702 E. Market Street, Akron
